March 30th, 2022

Dear Colleagues,

We would like to express our concerns for people of Ukraine. At the age of enlightenment and peace it is a shame and great sorrow for all of us witnessing Russian invasion and attacks. Our prays and thoughts are for those affected by this meaningless and brutal shocking events.

It is time of peace and peaceful thinking and acting for creating a better World. A war like this not only destroy our homes and buildings but also causes a great, unrepairable damage in our souls and will damage humanity, hopes and dreams. On behalf of Turkish ophthalmologist colleagues, I would like to express my heartfelt empathy and best wishes to Ukranian people. We would be happy if there is anything that we may do for help.

Yours sincerely,

Huban Atilla MD  
Genereal Secretary of Turkish Ophthalmological Association  
Head of the Strabismus Section
